

MMO DWARF'S ULTIMATE ELF NAMES GENERATOR TOOL

makes sounding pointy-eared and weird a doozy

All you need to generate your totally authentic-sounding elf names is a simple polyhedral d20 die ... a few minutes of your time ... and a profound desire to demonstrate to the planet that *elves don't suck like in truth they really do*.

Instructions For Use

- 1) Roll a d20 and add 10 to generate an *Elf Names Nomenclaturiser Number*.
- 2) Consult the tables below, 1-2-1-2 or 2-1-2-1 (d2 decides), writing out your Elf Name one lyrical phrase at a time until you reach your E.N.N.N.
- 3) Congratulations! Now you sound like a REAL ELF!
